

In 1997 Ulla Lohmann visited the tropical paradise for the first time and returned every year since then. Over the years she has build close relationships with the friendly and kind locals. One village chief even adopted her as his daughter. Some years ago, the non-profit organization PPAF e.V. was founded in order to support the local schools, help with the water supply for the communities and provide medical aid products.

Cyclone Pam was one of the most severe natural disasters to hit the region. With wind speeds exceeding 300 km per hour, heavy rain fall and storm surge it caused massive destruction and damage.

Now our help is needed even more. Many people lost their homes or even family members or relatives. They don't have tools for cooking and no possibilities in order to rebuild their houses.

In order to help, Ulla Lohmann together with her husband Sebastian Hofmann will fly to Vanuatu.

We would like to ask you for your help.

The money will mainly be used to support the people on the remote islands of Ambrym and Tanna. For many years we have been collaborating with

the villages Lalinda, Endu and Lamakara and can therefore assure you that your money will reach the once in need and that it will be used wisely.

Thank you very much for your help!

Ulla Lohmann, Sebastian Hofmann, Guy Franquinet and Roxane Riecker (board members)
